Xiaoyuan Zhu

San Francisco | U.S. Permanent Resident
(949)-923-0428 | hoireszhu@hotmail.com | Linkedin | Github | Personal Website

SKILLS

Language: JavaScript, Python, C, Ruby, SQL, HTML, CSS, R, Assembly, VHDL

Software/Framework: Ruby on Rails, React.js, Node.js, Git, MongoDB, Postgresql, Express.js, jQuery, Matlab, Solidworks, Matlab, AWS, Microsoft Excel, Magic, PCB, ASIC, FPGA

PROJECTS

Prooster   Live | Github

Responsive single page application built using Ruby on Rails, React/Redux and Postgresql   *July, 2017*

- Utilized Cloudinary, Amazon S3, Dropzone.js and React-Slick for smooth image hosting
- Designed individual display grid in React for product presentation with tags, upvotes and comments
- Implemented universal search bar using PostgreSearch to exhibit products based on user input

PourOverJS   Live | Github

Full stack application built on MongoDB, Express.js, React/Redux and Node.js   *Aug, 2017*

- Calculated performance metrics for submitted code by modifying the transformed abstract syntax tree
- Developed stackframes visualization to synchronously step through the program execution
- Utilized Mongo model validations to implement user authentication and code snippets storage
- Lead a team of four utilizing Scrum sprints for rapid prototyping(Agile methodology)

Man Down   Live | Github

Challenging and interactive Javascript browser game   *July, 2017*

- Created collision effects and block generator using vanilla Javascript, HTML Canvas and CSS
- Applied hash map and linked list in image structures for smooth action rendering at 60 fps

WORK EXPERIENCE

Danaher Corporation(SATA)   Shanghai, China

Logistic Coordinator   *June, 2012 - Aug, 2012*

- Coordinated warehouse movement project involving 20 million dollars worth of products
- Conducted Kaizen events and Kemba Walks that improved overall warehouse turnaround process by more than 6%

Hantoo LLC   San Francisco, CA

Project Manager   *June, 2016 - Aug, 2017*

- Managed team of 4 to generate market and branding strategy for the North American market
- Established working relationships with 5 out of 20 inspected manufactures within 4 months of launch

EDUCATION

University of British Columbia   Vancouver, BC, Canada

B.S. in Electrical Engineering   *Sept 2010- May 2015*

App Academy   San Francisco, CA

Software Development Course   *May 2017 - Aug 2017*
